Its 1,500 + Customers include major retailers as well as small and medium-sized importers from Europe, the US and Asia – 58 countries in all.

AsiaInspection delivers reliable and cost-effective quality control solutions:

- Pre-shipment Inspections (PSI)
- Factory Audits (FA)
- Social Audits (SA)
- Initial production checks (IPC)
- During production checks (DUPRO)
- Container loading checks (CLC)
- Laboratory testing (LT)
- Production monitoring (PM)

AsiaInspection offers its customers the convenience of booking and managing all their requests **online** on www.AsiaInspection.com, from initial submission of specifications to the issuance of post-inspection reports.

Inspections and Audits are ordered online directly from customer accounts, making it easy to re-order, to amend scheduling and modify orders right up to the day prior to the inspection date. It is also possible to consult and approve or reject the post-inspection reports, as well as to issue certificates to suppliers automatically.

A new vision in a traditional market

Founded in Shenzhen in 2002, AsiaInspection has grown 10-fold since it launched its online platform in 2003. AsiaInspection's network of over 350 experienced inspectors will perform 32,000 Inspections and Audits throughout Asia in 2008. Inspectors are able to reach any Asian factory within 48 hours, and provide detailed reports within the same day of the Inspection.

Multiculturalism, along with a new vision in an established market, has allowed AsiaInspection to experience triple-digit growth each year since the launch of its online platform, earning the trust of companies such as Carrefour, Somerfield and Philips.
